SOFTWARE ENGINEER

Full stack developer with command of JavaScript, React, Python, HTML, and CSS. Passionate about learning and strive to constantly improve upon and expand my skill set. I am detail-oriented and efficient, a quick learner and I care deeply about quality. I value personal connections and enjoy working both on individual projects and as part of a team on larger tasks.

TECHNICAL SKILLS

JavaScript, React, Python, HTML, CSS, Git

TECHNICAL PROJECTS

Brewery Tap List (React) - [Github](#) | [Demo](#)

Track inventory and manage current beer list for small to large breweries

- Utilized controlled form for users to add new beers to inventory
- Built filter for users to easily search for beers by name or style
- Leveraged state to update inventory, on tap list, and coming soon list
- Incorporated dynamic client-side routing
- Designed custom CSS utilizing UI Semantic

Wufr - An App for Single Dogs (JavaScript) - [Github](#) | [Demo](#)

Swipe through random dog images and save or delete favorite ones

- Interacted with Dog CEO API to render random dog images
- Persisted favorite dog images through POST and DELETE requests to JSON file
- Incorporated toggle container to hold favorite dog images
- Designed custom CSS for single page application
